BRINGS HEALTH TO THREE MEM-BERS OF SAME FAMILY.

Cures a Wife's Debility After Malaria, a Husband's Rheumatism, a Daughter's

Nervous Prostration. "I have recommended Dr. Williams Pink Pills to many people," said Mrs. Gossett, "because I have seen such good results, time after time, right in my own family. There are three of us who have no doubt about their merits. We do not need to take anybody's word on the subject for our own experience has taught us how well they deserve praise.

"It was just about ten years ago that I first read about Dr. Williams' Pink Pills, and bought my first box. I was at that time all run down, weak, nervous and without ambition. I had been doctoring all summer for malaria and stomach trouble. Everybody thought I was going into consumption, as my

mother had died of that disease.
"Thanks to Dr. Williams' Pink Pills, I am now alive and hearty. I began to improve as soon as I began to take them, and when I had taken three boxes I was a well woman. Everyone wonders how I keep so well and am able to care for my home and six children without help. Dr. Williams' Pink Pills explain it.

"My oldest girl's health began to fail when she was about fourteen. She was nervous, complained of sharp pains in her head, would get deathly sick and have to leave the school room to get fresh air to revive her. I gave some pills to her. She took only a few boxes, but they cured her troubles, and caused her to develop into a perfect picture of health. Then my husband took them for rheumatism and found that they would cure that too. So you see we have all got great good from using them, and that is why we recommend them to others."

Mrs. Minnie B. Gossett lives at Uhrichsville, Tuscarawas Co., Ohio, and is well known, as she has resided in tha same neighborhood for more than thirteen years. Her story shows that a medicine which makes the blood sound and the nerves strong, overcomes a variety of diseases and should be found in every household. Dr. Williams'Pink Pills are sold by all druggists everywhere. They have cured anaemia, and all forms of weakness, also the most stubborn cases of dyspepsia and rheumatism. They are indispensable for growing girls.

FROM SCIENTIFIC SOURCES.

The electric waves measured by Hertz -and named after him-were found by the great scientist to be 150 feet from the top of one wave to the top of the next. The waves used by Marconi in telegraphing across the Atlantic are much longer; in fact, they are 600 feet or more. They travel at the same speed as light-the incredible and almost inconceivable rate of 184,000 miles per second. But the light wave measures only a few millionths of an inch.

Mr. R. A. Farmer, of the United States geological survey, has left Sacramento, Cal., upon a mission that may establish, in accordance with scientific requirements, the exact height of Mount Whitney and also the lowest point in the United States. Mount Whitney is generally believed to be about 15,530 feet in height, while the surface of Death valley, popularly supposed to be the lowest in the country, has been estimated at from 100 to 500 feet below the level of the sea. The expedition will be a hazardous one.

Darwin admitted that the pursuit of science destroyed his love of art, but Ernst Haeckel, who is one of the greatest living scientists, is also an artist of marked ability. Though Haeckel has devoted a long and industrious life to biological researches, he has found leisure to do hundreds of paintings, and many of his monographs on biology, from bread crumbs absurd likenesses of which are scientific classics, are illustrated with his own pictures in color. During a four months' visit to India for scientific study he brought back some 200 fair-sized water colors.

It is difficult to conceive of the conditions where canned goods need be consumed without preparation by use of a fire, but evidently such circumstances do exist, as several arrangements for chemically heating canned goods are being applied practically in Germany. In one case the heat is derived from socalled hard spirit contained in a receptacle attached to the can, and in another by allowing water containing a little acetic acid to act upon unslaked lime, which ingredients are also contained in receptacles attached to the

CHILDREN AFFECTED

By Mother's Food and Drink.

Many babies have been launched into life with constitutions weakened by disease taken in with their mother's milk. Mothers cannot be too careful as to the food they use while nursing their babes. The experience of a Kansas City mother is a case in point:

"I was a great coffee drinker from a child, and thought I could not eat a meal without it. But I found at last it was doing me harm. For years I had been troubled with dizziness, spots before my eyes and pain in my heart, to which was added, two years ago, a chronic sour stomach. The baby was born 7 months ago, and almost from the beginning, it, too, suffered from sour stomach. She was taking it from

"In my distress I consulted a friend of more experience than mine, and she raising of Angoras; at least such is the told me to quit coffee, that coffee did testimony of Mrs. Laura Dainty Pelnot make good milk, I have since ascertained that it really dries up the milk ant business. This is the testimony of

"So, I quit coffee, and tried tea and at last cocoa. But they did not agree a restaurant, Mrs. Pelham has never with me. Then I turned to Postum Cof. raised cats. fee with the happiest results. It proved to be the very thing I needed. It not only agreed perfectly with baby and myself, but it increased the flow of my milk. My husband then quit coffee and used Postum, quickly got well of the dyspepsia with which he had been troubled. I no longer suffer from the dizziness, blind spells, pain in my heart or sour stomach. Postum has cured them.

"Now we all drink Postum, from my husband to my seven-months'-old baby. It has proved to be the best hot drink we have ever used. We would not give up Postum for the best cof-fee we ever drank." Name given, by will start the business and keep the Postum Co., Battle Creek, Mich.

There's a reason. Get the little book "The Road to Angora kitten and a love of cats is Latin, as is the custom here Wellville" in each pkg.

STS HUMBLE WISHES

MADEMOISELLE MISCHIEF

By LIEUT. MURRAY

ANY years ago, ia a cottage near Paris, there lived a widower with that would have done credit to a much four children. The locality was in a older artist, and these pictures sold as beautifully wooded district, since swal- fast as she finished them. Miss Mischief lowed up in the grand improvements of the Bois de Boulogne. The occupant of the cottage was an artist, and a very father, who offered her all the instruchumble one in point of ability, who struggled industriously to obtain food her in seeking further opportunity for for those four young mouths, like a parent bird presiding over a nest of fledg-

The oldest of these children was sent to school at the time we refer to, proving an exceedingly intelligent pupil, but with such an irresistible propensity for mischief of all sorts that she absolutely came to be called Mademoiselle Mischief.

She was a good-hearted child, but yet a perfect little imp, whose roguery got her constantly into difficulty.

One very reprehensible trick of the young girl was the propensity, which seemed perfectly natural to her, for drawing caricatures of the schoolmistress and others, especially of all her young companions, which, being done with admirable likenesses, possessed just enough merit to make the satire very keen and sometimes bitterly felt.

Miss Mischief was also wonderfully expert with the scissors, cutting out pic-

SET HERSELF INDUSTRIOUSLY TO WORK.

tures from black paper, and was also very skillful in carving wood with her petite character. She always wore her penknife. Another trick to which she hair short, and in many respects folwas addicted was that of producing lowed the dress of the sterner sex; but in her teacher and such professors as vis- like. ited the school where she belonged.

The roguish little creature gave her schoolmistress an infinite amount of trouble, and there is no use in disguising the fact that she was almost daily laid across the mistress' lap and soundly punished. Still it was impossible to break her exuberant spirit, and she went on with her caricatures, mingled with pictures of animals and trees.

At last it seemed as though the good schoolmistress was in despair. She knew not how to punish her so as to have the proper effect. She was tired of "correcting," and finally appealed to the child herself:

"What shall I do with you?" "I don't know."

"I do not wish to whip you." "Please don't," she said. "What can I do to make you behave

better?" "Lock me up," said Miss Mischief,

brightening up, as though a capital idea

had struck her.

"I will try it," said the mistress. So the little girl was conducted to the coal cellar, where she was duly imprisoned. But, alas! when her mistress went to release her she found that the incorrigible child had covered the walls of of the world .- N. Y. Weekly.

A LITTLE TOO PRECOCIOUS

Small Miss Was Somewhat in Advance of the Necessary Requirements.

Anson Phelps Stokes, Jr., the secretary of the Yale corporation, takes a profound interest in children, says the New York Tribune. Talking with an undergraduate, he said the other day:

"Children should be modest, shy, quiet. That type of child is apt to turn out better in the end than the clever, takative, precocious type. It is apt to have

better in the end than the clever, taikative, precocious type. It is apt to have a broader, nobler mind. The talkative and precocious type is apt to be shallow. "For my part, I should hesitate to promise much for the future of so precocious a youngster as one in Quincy Adams that I heard of last week. "This Quincy Adams chid, a little girl of seven or eight years, stood one day before a closed gate.
"A gentleman passed slowly. The little girl turned and said to him:
"Will you please open this gate for me?"

The gentleman did so. Then he suid, kindly: "Why, my child, couldn't you open the rate for yourself?"
"Because, said the little girl, 'the paint's not dry yet. Look at your hands."

PREFERRED BEING JAILED.

Concealed Burglar Surrendered When the Music Lessons Took

A burglar who entered a Harlem house suffered a unique form of punishment. It happened, says the New York Press, that the family he had come to rob were inconveniently early risers, and before he had half finished his work he heard a step on the stairs. Quickly gathering up his booty, he slipped behind the piano, in-

step on the stairs. Quickly gathering up his booty, he slipped behind the piano, intending to make good his escape as soon as opportunity offered.

But opportunity did not offer, for it appeared that the step he had heard was that of one of the daughters of the house, who had come down to the parlor for a couple of hours' practice before breakfast. When she had finished another daughter was standing ready to occupy the stool for another two hours.

Next followed the music lessons of each of the young ladies in turn. After these lessons were over their brother's violin teacher appeared, and, seating herself at the piano, began his accompaniment. But this was too much. The burglar rushed from his hiding place.

"For heaven's sake have me arrested," he implored. "At least there are no pianos in jail."

What Everybody Says.

Jamboree, Ky., April 3rd.—(Special)—
"I suffered for years with my back," says
Mr. J. M. Coleman, a well-known resident of this place. "Then I used Dodd's
Kidney Pills and I have not felt a pain
since. My little girl complained of her
back. She used about one-half box of
Dodd's Kidney Pills and she is sound and
well."

well."

It is thousands of statements like the above that show Dodd's Kidney Pills to be the one cure for Backache or any other symptom of deranged kidneys. For Back-ache is simply a sign that the Kidneys need help.

Dodd's Kidney Pills always cure Back-

ache. They also always cure Bright's Dis-ease, Diabetes, Dropsy, Rheumatism, Blad-der and Urinary Troubles and Heart Dis-ease. These are more advanced stages of kidney disease. Cure your Backache with Dodd's Kidney Pills and you need never fear them. fear them.

International Courtesies.

STOP! WOMEN.

AND CONSIDER THE **ALL-IMPORTANT** FACT That in addressing Mrs. Pinkham you are confiding your private ills to a woman

— a woman whose experience with woman's diseases covers a great many years. You can talk freely to a woman when it is revolting to relate your private troubles to a man—besides a man does not understand-simply because he is a man. Many women suffer in silence and drift along from bad to worse, knowing full well that they ought to have immediate assistance, but a natural modesty impels them to shrink from exposing themselves to the questions and probably examinations of even their family physician. It is unnecessary. Without money or price you can consult a woman whose knowledge from actual experience is great. Mrs. Pinkham's Standing Invitation: Women suffering from any form of female weak-Women suffering from any form of female weakness are invited to promptly communicate with Mrs.
Pinkham at Lynn, Mass. All letters are received,
opened, read and answered by women only. A
woman can freely talk of her private illness to a
woman; thus has been established the eternal
confidence between Mrs. Pinkham and the women
of America which has never been broken. Out
of the vast volume of experience which she
has to deaw from it is more than possible

Following we publish two letters from a woman who accepted this invitation. Note the result.

First letter.

"Dear Mrs. Pinkham:—
"For eight years I have suffered something terrible every month with my periods. The pains are excruciating and I can hardly stand."

The pains are excruciating and I can hardly stand. pains are excruciating and I can narriy stand them. My doctor says I have ovarian and womb trouble, and I must go through an op-eration if I want to get well. I do not want to submit to it if I can possibly help it. Please tell me what to do, I hope you can relieve me."—Mrs. Mary Dimmick, 59th and E. Capitol Sts., Benning P.O., Washington, D.C. Sacond letter. Second letter.

Dear Mrs. Pinkham:—
"After following carefully your advice, and taking Lydia E. Pinkham's Vegetable Compound, I am very anxious to send you my testimonial, that others may know their valueand what you have done for me.

Board Bill and Billboard. Bill had a billboard. Bill also had a board bill. The board bill bored Bill so that Bill sold the billboard to pay his board bill. So after Bill sold his billboard to pay his board bill the board bill no longer bored Bill.—Yale Expositor.

SOUTHERN CONDITIONS AND

POSSIBILITIES. In no part of the United States has there bees such wonderful Commercial, Indostrial and Agricultural development as along the lines of the Illinois Central and the Yazoo & Mississippi Valley Railroads in the States of Tennessee, Mississippi and Louisiana, within the past ten years. Cities and towns have doubled their population. Subendid business blocks have been ulation. Splendid business blocks have been erected. Farm lands have more than doubled in value. Hundreds of industries have been established and as a result there is an unprecadented demand for

Day Laborers, Skilled Workmen, and especially Farm Tenants.

Parties with small capital, seeking an oppor-tunity to purchase a farm home; farmers who would prefer to rent for a couple of years before purchasing; and day laborers in fields or facto-ries should address a postal card to Mr. J. F. Merry, Asst. General Passenger Agent. Dubique, Iowa, who will promptly mail printed matter concerning the territory above described, and give specific replies to all inquiries.

During the months of March and April, there will be Excursions on the various lines of rail-way to the Canadian West. Hundreds of thousands of the best Wheat and Grazing Lands on the Continent free to the settler.
Adjoining lands may be purchased from rail-

way and land companies at reasonable prices. For information as to route, cost of transportation, etc., apply to Superintendent of Immi-gration, Ottawa, Canada, or to
